Site Location - 600 West Coast Road, Singapore 127445

Ref: SNCG- ITT – INDOOR CRIC CAGE

Date- 17/03/2025

Page | 1

INTRODUCTION

The Singapore Cricket Association (SCA) is the national governing body for cricket in Singapore. As part of our commitment to developing cricket infrastructure, we are inviting qualified vendors to participate in the tender process for the design and construction of an Indoor Cricket Court [Sheltered Building] at the designated onsite location.

Date of issue - 17 March 2025

Closing Date on 7 April 2025, 5:00 pm

The Singapore Cricket Association is the national governing body for Cricket in Singapore. Quotations are hereby invited from the suppliers/ vendors/ contractors for supply of the under-mentioned as per specifications mentioned below:

Singapore Cricket Association is requesting a proposal to build International standard indoor cricket court in Singapore.

Contractors Qualification & Submission Criteria – Compliance Processes

Suppliers, Vendors, or Contractors Requirements

Experience in Indoor Cricket Court Construction

Contractors must have prior experience in constructing indoor cricket courts that meet World Indoor Cricket Federation (WICF) international standards.

International Build & Deployment Experience *(for non-local contractors)*

If the contractor is not based in Singapore, they must have successfully built and deployed at least two (2) indoor cricket courts internationally.

Licenses & Qualifications Compliance

Contractors must provide valid and up-to-date licenses, certifications, and qualifications. Proof of compliance with Singapore's building regulations and industry standards is mandatory.

Proven Track Record & Technical Competence

Contractors must demonstrate relevant experience in similar sports infrastructure projects. A portfolio of previous projects should be submitted, showcasing expertise in indoor cricket facilities.

COURT DESIGN SPECIFICATIONS

Court Dimensions

1. Indoor Cricket court (Playing area): 11.5m (width) x 30m (length) x 4.5m (height)
2. Cricket Nets: Additional 6 Meters beyond back-net.

Page | 3

Nets

1. Supply and setup of indoor cricket netting and nets required for Crickets Nets.
2. Back-net should have retractable net systems and two curtain nets to be rolled-in to convert the indoor cricket court into 3 Net lanes for outdoor cricket.
3. All specifications should comply with world indoor cricket federation standards (not limited below)
4. H.D.P.E green/black netting 45mm x 45mm mesh, 2.5 mm cord U.V. stabilised.
5. Top netting screen 37.5mm x 37.5mm mesh
6. 4.10mm wire cable on top and bottom perimeter of netting
7. Bottom perimeter of netting must be reinforced.
8. Metal reinforcing brackets on all corners
9. Outside corner nets, Two flap type doors per court

Court Dimensions

1. Indoor Cricket court (Playing area): 11.5m (width) x 30m (length) x 4.5m (height)
2. Cricket Nets: Additional 6 Meters beyond back-net.

Astro Turf

1. Turf should be constructed from fibrillated fibres. The product should be a suitable sport surface for all levels of the game, providing consistent, safe, true ball bounce and surface reaction.
2. 9.5 to 10mm Pile Height
3. 5mm white line on either side of the main pitch
4. 50mm thick white lines for crease and other line markings
5. Option of multiple colours for pitch and outfield to choose from

Pitch & Markings

1. Installation of an Astro with appropriate dimensions mentioned above with markings [Factory built] as per indoor cricket standards.

Equipment Supply

1. Provision of all supplies including but not limited to nuts, bolts and any additional equipment necessary to build the court.

Lighting

1. LED sports lighting Installation. Contractors should propose the level of LUX.

SINGAPORE CRICKET ASSOCIATION

The Governing Body of Indoor and Outdoor Cricket in Singapore

Surface Installation

1. Provide complete specifications of the required flooring, flooring will be made available by SCA before handing over for court build.

Page | 4

Overhead structure & Pillar Installation

1. Provide specification of structure required and drawings of the court
2. Mandatory to be part of the discussion with SCA and the Structure builder to ensure that pre-requisites for the court are in place.

The Spawtz Scoring Software with Venue Management should be provided.

1. Additional hardware requirements include.
2. 1 x PC or laptop running Windows 10 Basic or better, and though there is no requirement on the amount of RAM required. Please note that Windows 7 Starter does not work with this software.
3. 1 x Screen for the umpires to view (ie a standard monitor or laptop screen. 19" is ideal!)
4. 1 x Screen for the Scoreboard main view (ie a smart LED TV. 55" is ideal!)
5. 1 x Network card for each computer if not using a laptop with HDMI capability. Either you will need to get wireless network cards and run a wireless network at the arena, or you will need to run cat 5 cables up to each ROSTRAM [router. Etc] so the umpire computers can get on to the local network, and from there on to the internet.
6. 1 x Graphics card capable of running two monitors for each computer. It is much better if this is the case as then you can display just the score summary on the large screen scoreboards and the entire scoresheet on the umpire's screen. So, you will either need a graphics card capable of running two monitors, or two graphics cards in each of the umpire's pcs.
7. 1 x keyboard and mouse for each umpire computer.

The court should be equipped with a state-of-the-art Decision Review System

The requirements include.

1. Minimum of 3, maximum of 4 cameras with Cat 6 wiring
2. POE switch
3. Gaming laptop
4. Replay software.
5. HDMI splitter
6. Monitor/20" screen for players to view.

Live Streaming technology

The court should be equipped with Live Streaming technology. The requirements include.

1. camcorder
2. One 50m HDMI cable
3. One 2m HDMI cable
4. One laptop or equivalent device to enable live stream.
